

Subject: Update to Ascent™ Student Information System (SIS) Version 1B is now available from Education Technology Labs

We are pleased to announce that the release of the Ascent™ Student Information System (SIS) Version 1B has been added to the Ed Tech Labs™ Sharehouse™. The Multi-Record Student Information System includes two **NEW** additional tabs.

The screenshot shows the 'Request Tab' in the Ascent SIS interface. A student profile for DEEM, DIANA JUANITA is displayed. The 'Request' tab is active, showing a table of course requests. A 'Course Scheduling Options' dialog box is open, allowing users to select options like 'Overfill classes if necessary', 'Schedule Study Hall', and 'Reset previous requests'. A callout box points to the 'Request scheduling options' button.

Request Tab

The Request tab allows for scheduling of course requests for an individual student. An added feature providing access to an online Master Schedule for selection of courses is available. A select/sort option allows search of the Master Schedule by several options, course id, teacher, period, etc.

Assessment Tab

The Assessment tab presents* (view only) a wide array of assessment scores, such as SAT, ACT, AP, CORE, HSPT, ITBS and selected state Assessment tests. It can display subtest scores, testing history and include a picture in a printed form.

*By using the NEW Assessment Program (AGS V1B) in the Sharehouse™ the scores will appear in the Assessment Tab.

The screenshot shows the 'STUDENT TEST SCORES' page for DEEM, DIANA G. The page includes a student profile and a table of test scores. A callout box indicates 'Printed Assessment w/ subtest scores'.

STUDENT TEST SCORES									
Print

Ascent™ Multi-Record Student Information presents fully-functional multi-tabular accessibility to student information within the Ascent™ web interface. The information is displayed within tabs pertaining to Basic Information, Family Information, Contacts, Registration/Alert, Enrollment History, Attendance Records, Grading Records, Transcripts, Tags, Schedules, Course Requests and Assessment (test scores), subject to a user's access restrictions.

Ascent™ Classroom Attendance and **Ascent™ Classroom Grading** provide a web-based means for teachers to easily enter daily attendance and grades from their desktops via the web in real-time. This can be accomplished by
