Multi-Record Student Information

The Multi-Record Student program allows Administrators, Counselors, Teachers, and Staff quick access to student data. Student information is presented using informational tabs for quick, intuitive and powerful access. The individual student screen includes a picture of the student and Tabs to view pertinent information regarding the student. The ability to add, change or look is dependent on the user's restrictions. Many tabs have printable views for convenience. The Add-Student Wizard makes adding a new student simple. Ascent runs in real-time on the IBM™ iSeries.

- Basic Tab- Comprehensive main screen with understandable code descriptions
- Family- Intuitive with simple linking of the family and siblings
- Contacts- List contact can be prioritized and can include cell phones and email addresses
- Profile- One-stop source for a printable student information snapshot
- Registration/Alerts- homeroom/bus and counselor setup- ALERT information relative to student
- Tags- Listing of student tags and their information
- Enrollment History- Capable to view or print entire enrollment history spanning physical years
- Attendance- Real-time display and description drill-down to daily attendance
- Schedule- Flexible view of all schedule information
- Requests- Allows for powerful access to Master Schedule and scheduling functions
- Grades- Comprehensive view or edit functions of Grades and Comments
- Transcripts- Printable transcript (includes picture)
- Assessment- View & print complete test scores – tests on display are designated by district

The screenshot displays the Ascent Multi-Record Student Information system. It features a search interface for students by name, a list of results, and a detailed view of a student's information. The detailed view includes a student photo, name (DEEM, DIANA JUANITA), age (18), district (Ascent Public Schools), grade (12), school (Ascent High School), and phone number (525-123-4567). The interface also shows various tabs for navigation, including Home, Messages, Active Programs, Recently Used, Support, Help, Exit, and Logout. The assessment section displays a table of test scores for various tests, including Advanced Placement Test, Core Subject Tests, and High School Proficiency Test.

Test Id	Year	Month	Class	Subject	Dist	Score	Percent	Markers	Other
AP	2005	05	11	PHYS THEORY	M	5	40.00		
CORE	2005	05	11	LANGART	M	80	80.00	4	
CDAF	2004	08	10	ALGEBRA	M	78	78.00	4
