

## Schools Sharing Technology

### *Parent@School*

Parent@School is a robust application that is intuitive and simplistic running in real-time on the IBM™ iSeries. It allows parents to be informed of their student's activity and achievement at school. Information is displayed for viewing purposes only in the following areas:

Student Demographics  
Student Absences  
Student Schedules  
Student Immunization Records

Lunch Account Balances (when interfaced with a lunch accounting application)

Mid-term and End-of-period Grades  
Graduation Requirements fulfilled  
Student Transcript Records  
Current Grades for classroom assignments and tests (when interfaced with a gradebook application)  
Links to other School Web Sites or other Internet Sites

## Working Together Works!
