Classroom Grading

The Classroom Grading program simplifies the process of recording student grades, saving you time and increasing the accuracy and availability of student grades. It is designed to record major milestone grades, where you record overall grades you have kept manually or in related grading programs. This application runs in real-time on the IBM™ iSeries, no downloads or uploads, allowing grades to be available for office use immediately. No more scanners, scan forms, ink, and paper saving District funds. Teachers do not have to bother with grading forms only follow these 5 easy steps:

1. Go to the Ascent Web link and log in.
2. Go to the program menu screen and select the grading program.
3. Select the course.
4. Enter grade information.
5. Save your entries

The screenshot shows the 'Ascent School District' interface for 'Teacher Classroom Grading'. The header includes 'Student Information - 1998/99' and 'DEMO'. A navigation bar contains 'Home', 'Menus', 'Active Programs', 'Recently Used', 'Support', 'Help', 'Exit', and 'Logout'. The left sidebar shows a 'Course Listing' for 'SEM 1' with options like 'A2 - COMPUTER TEC', 'A2 - STUDY HALL', etc., and 'SEM 2'. The main area displays a table for entering grades for students like BRUWM, PAUL P., BULUSKU, MATTHEW E., etc. The table has columns for 'Student Name', 'Grades' (Q2, EX1, FG1, CM1, CM2), 'Comments', and 'Previous Grades' (Q1). Each cell contains a grade input field with a dropdown arrow and a 'Save' icon.

Student Name	Grades					Comments	Previous Grades
	Q2	EX1	FG1	CM1	CM2		
BRUWM, PAUL P.	B	B-		12			F
BULUSKU, MATTHEW E.	A+	A-			21		
FROMKLOM, DEVON M.	F	C		19	41		
JUMUS, JENNIFER A.	C	F					
LUWURY, THERESA B.							
VANDAMM, JENNIFER L.
